A modern lounge interior featuring a ceiling with a complex, perforated metal design that creates a starburst light effect. The space is filled with warm, ambient lighting from recessed ceiling fixtures and wall sconces. Comfortable, tufted armchairs and ottomans are arranged in a relaxed seating area. The walls are clad in wood, and the floor is made of light-colored wood. A large, curved, illuminated structure is visible in the background, adding to the contemporary aesthetic.

unique

everything is possible

Der Anspruch an Wellness-Bereiche hat sich drastisch verändert. Heute geht es darum, Räume zu schaffen, die verzaubern und begeistern. Wir sind es gewohnt, eng mit allen Projektpartnern zusammenzuarbeiten und die Wünsche der Gestalter kompromisslos umzusetzen: jeder Stil, jedes Maß und jede Idee wird zu einem realen, faszinierenden Raumerlebnis.

The expectations for wellness areas have changed dramatically. Today, it is all about creating spaces that enchant and inspire. We are used to working closely with all project partners to translate designers' visions without compromise: every style, every dimension, and every idea becomes a tangible and captivating spatial experience.

Le esigenze degli spazi wellness sono cambiate profondamente. Oggi si tratta di creare ambienti capaci di incantare e sorprendere gli ospiti. Siamo abituati a lavorare a stretto contatto con tutto il team, realizzando senza compromessi le visioni dei progettisti: ogni stile, ogni misura e ogni idea prende forma in un'esperienza spaziale concreta e affascinante.

service

Take advantage of our wellness experience

Die Bezugstoffe in Wellness-Bereichen müssen hohe Anforderungen erfüllen. Die Stoffe sollten einen hohen Fleckschutz, Lichtechtheit und Chlorbeständigkeit aufweisen. Außerdem sollten sie antibakteriell, wasserabweisend und flammhemmend sein, sich dabei natürlich weich anfühlen und wunderschön anzusehen sein.

Upholstery fabrics used in wellness areas must meet high standards. The materials need to offer excellent stain, light, and chlorine resistance, while also being antibacterial, water-repellent, and flame-retardant. At the same time, they must remain naturally soft to the touch and visually appealing.

I tessuti di rivestimento utilizzati nelle aree wellness devono soddisfare requisiti elevati. I materiali devono offrire un'elevata resistenza alle macchie, alla luce e al cloro. Inoltre, devono essere antibatterici, idrorepellenti e ignifughi, mantenendo al tempo stesso una piacevole morbidezza al tatto e un aspetto estetico raffinato.
